

INTEGRATION DELIVERY SERVICES: LIFECYCLE

CONTACT US

Reach out and contact us via our Rocket Chat Channel "Integration Delivery Service" or our inbox jpsids@gov.bc.ca

MEETING

We meet with you to understand your requirements, needs and answer any questions you may have.

ONBOARDING

All integrations projects must go through the ISB project approval process which includes having a Project Initiation Document (PID) and have approval from ISB's executive team via BMC.

KICKOFF

Let's officially kick the project off. This is where sprint cadence will be determined, JIRA project will be setup to track activities, and the project team is officially formed.

AGILE DEVOPS

Let's start developing, testing, delivering and iterating.

DELIVERY

Project team completes delivery of final solution. Project mode is completed.

TRANSITION TO OPERATIONAL SUPPORT

All new integration services will move into the operational support model mode.

MAINTENANCE

Business areas are responsible for funding maintenance or enhancements.

The Integration Delivery Service Team is responsible for funding infrastructure changes/upgrades.

For any questions, contact the Integration Delivery Services Team at jpsids@gov.bc.ca
